

Quality Policy

Euro Precision is committed to provide facilities for the manufacture of machined precision components and assemblies in ferrous and non-ferrous materials to customer specifications. It is our aim to continue to meet, or exceed, the requirements and expectations of our customers and other interested parties.

Our intended quality standards are to be achieved through internal audit of our system and processes, measured against key performance indicators and subject to regular management review of our quality system, in accordance with ISO 9001:2015 requirements.

The processes of ‘Quality Management’ and ‘Business Management’ are fully integrated and defined as the Business Management System (BMS).

- It is the policy of the company to use a process-based, ISO 9001:2015 compliant, Business Management System.
- The Business Management System will be used as the framework for all activities.
- The activities will provide support and structure to develop the strategies and achieve the objectives of the company.
- Strategies and objectives are underpinned by the company Vision, Mission and Values.
- Continuous improvement will be an ingrained part of all business processes, based on the evaluation of data to improve performance
- It is the responsibility of all employees to work in accordance with BMS requirements, and all aspects of the BMS will be available to employees, as required.

Signed:
